

Shipping and Delivery Policy

Document ID: SHP-003 | Owner: Operations & Customer Experience | Version: 1.0

Purpose: This controlled document defines business rules used by BizInsight AI when answering customer, sales, and operational questions.

Delivery Options

Service	Typical Delivery Time	Eligibility / Notes
Standard	3-5 business days	Available for most domestic orders
Express	1-2 business days	Available for eligible service areas and products
International	7-14 business days	Timing varies by destination and customs

Orders above \$5,000 qualify for free standard shipping unless a product-specific exception applies.

Tracking and Dispatch

- Tracking details are generally available after the order is dispatched.
- A processing status indicates that the order has not yet entered carrier transit.
- Delivery estimates are indicative and may change due to carrier or weather events.
- International orders may require customs clearance before final delivery.

Customer Support Guidance

For an order-specific delivery question, retrieve the order status and date from the business database, then explain the applicable shipping commitment from this policy.

Example: If the database shows an order is dispatched today and the user asks about standard delivery, the assistant should use the 3-5 business day policy range while clearly distinguishing an estimate from a guaranteed date.

Internal business reference. Rules may be updated by the document owner; the latest approved version takes precedence.
